“Valley Financial Group gives me the opportunity to build the bridge between law enforcement and investment professionals. With 21 years of law enforcement experience, I understand the needs of fellow law enforcement officers better than the vast majority of investment advisors. At Valley Financial Group, our knowledgeable financial advisors provide law enforcement a greater understanding of their retirement options.”

With our decades of experience and thousands of hours of training we will help you decide:

- Can I Retire? On average, members of Law Enforcement retire earlier than most professions.
- What is the best strategy to optimize my Buyout & Rollover and protect my loved ones?
- What is the best plan of action to utilize my retirement lump sum and DROP Assets?
